Explanation of Symbols used:—C-Cases, D-Deaths

# NATIONAL SAVINGS

Available in three different series, maturing after 5.7 and 12 years. The yield is 3%, 3:57% and 4:16% simple interest, respectively, at maturity. Thus, in the 12 year-certificates money increases by 50% on maturity. Interest is free of income-tex and super-tex and is not taken into account, in arriving at the total taxable income

The certificates are obtainable from Post Offices doing Savings Bank business in denominations of Rs. 5, 10, 50, 100, 500, 1,000 and 5,000. An individual can invest upto Rs. 25,000, and two joint holders upto Rs. 50,000/-.

## CERTIFICATES

Full particulars obtainable from Post Offices, District Organisers of the Small Savings Schome, Assistant National Savings Officers, Provincial National Savings Officers, or the National Savings Commissioners, Simis.

Deposits accepted in multiples of Rs. 100/- upto a maximum of Rs. 25,000 for a single depositor and Rs. 50,000 for two persons jointly. Interest at 3½% per annum (free of all taxes and not taken into account in assessing the otal taxable income) is paid or remitted to the depositor's address every year. Deposits accepted at effices of the Reserve Bank of India at 30mbay Calcutta, Delhi & Madras, and Branches of The Imperial Bank of India in other places transacting treasury business.

TEN-YEAR
EASURY SAVINGS
DEDOCITS

Full particulars obtainable from District Organisers of the Small Savings Scheme Assistant National Savings Officers, Provincial National Savings Officers, or the National Savings Commissioner, Simis.

AC.275

TODAY'S BEST INVESTMENT FOR SMALL SAVERS

#### REMARKS

The figures of births and deaths shown in this statement for week ending the 6th October, 1951, relate to 160 towns with an estimated population of 20,921 thousands. The total number of towns is 254 and their population is 31,142 thousands. Thus 63% of the total number of towns representing 67% of the total population is covered in this statement. The numbers of births and deaths recorded in these towns were 13,628 and 6,496 representing birth and death rates of 33.9 and 16.1 per thousand of population respectively.

(A) States (Parts A & C).—The data here relate to 137 towns with an estimated population of 17,684 thousands. Information about Assam, Bihar, Bombay & Orissa could not be included. The total number of towns is 219 and their population is 26,799 thousands. Thus 63% of the total number of towns representing 63% of the total population

is covered. The numbers of births and deaths recorded in these towns were 11,994 and 5,784 representing birth and death rates of 35·3 and 17·0 per thousand of population respectively. The table at the end gives the position by States.

No town recorded a high death rate of 50 or over per thousand of population.

(B) States (Part B).—The data here relate to 23 towns with an estimated population of 3,237 thousands. The total number of towns is 35 and their population is 4,343 thousands. Thus 66% of the total number of towns representing 75% of the total population is covered. The numbers of births and deaths recorded in these towns were 1,634 and 712 representing birth and death rates of 26·2 and 11·4 per thousand of population respectively. No town recorded a high death rate of 50 or over per thousand of population.
